Care for **Private**

Agency on Aging Clients

"Our Passion is Caring"

Setting Up Care

Since no two people are the same, our agency conducts a confidential, in-home consultation to gain a better understanding of you and your family's specific needs and expectations. This initial meeting provides you and us with the opportunity to learn about each other and to address any questions you may have about our service.

Living in your own home can be the most wonderful thing in the world.

Providing Home Care Services

Services Provided:

- Hourly care
- Overnight "alert" shifts
- Affordable live in care
- In-home companionship
- meal preparation
- light housekeeping
- laundry
- errand services
- grocery shopping
- transportation services

It's where you're most comfortable, where you belong. But sometimes it can get overwhelming and you'd like someone to help out. What better solution than to call our agency. Whether it's long or short term, we offer quality care. And it can make all the difference.

Our caregivers can provide many services including supervision with bathing, dressing, medication reminders, social interaction, meal preparation and light housekeeping. In addition to these services the caregivers can transport the client to activities (doctor appointments, etc.). Not only do we offer caregivers that are

well-trained, we also screen our caregivers carefully so you'll be able to trust that you are getting the best possible assistance.

Our caregivers are all experienced. Most of all, they understand that home care is all about the comforts of your own surroundings, and they go out of their way to make you comfortable.

Whether you or someone you love is disabled, recovering from an illness, or just simply in need of care, our agency is ready to help. Our rates are competitive, our staff top notch and we're always available with our 24-hour 7 days a week on-call service.
